PROFESSIONAL SUMMARY

Mobile developer specializing in Flutter for Android, iOS, tablet, and desktop. I ship production apps for businesses across Myanmar - POS, accounting/ERP, laundry logistics, loyalty, e-commerce, and ride-hailing. Strong in clean architecture, state management (GetX, Riverpod, Bloc, Provider), REST/Firebase integration, offline workflows, and Play Store / App Store release. Expanding into Laravel for fuller product ownership.

WORK EXPERIENCE

Mobile Developer

Secure Link | Nay Pyi Taw / Remote, Myanmar | 2025 - Present

- Delivered and maintained 20+ production Flutter apps for commercial clients (POS, accounting, logistics, loyalty, e-commerce).
- Built Accounting + POS (ERP26) features: sales, stock/GRN, purchases, multi-branch workflows, and accounting dashboards.
- Developed restaurant POS systems with network printing, offline mode, and tablet/desktop layouts.
- Owned Rain Laundry customer and driver apps - order tracking, maps/routes, and end-to-end delivery workflows.
- Shipped fuel, inventory, and industry POS variants with staging/production releases and web/PWA builds.
- Integrated REST APIs, Firebase (Auth, Firestore, FCM), maps/routing, and local storage (SQLite, Hive).
- Released apps to Google Play Store and Apple App Store (signing, listings, build readiness).
- Collaborated via Git/GitLab workflows; contributed modular, maintainable Flutter code across client codebases.

TECHNICAL SKILLS

Core: Flutter, Dart, Android, iOS, Desktop (Windows), Web / PWA
State Management: GetX, Riverpod, Provider, Bloc
Backend & Services: REST APIs, Firebase Auth, Firestore, FCM, Laravel (learning)
Data & Devices: SQLite, SharedPreferences, Hive, Network Printers, Offline Mode
Maps & Realtime: OpenStreetMap, OSRM, Live Tracking, Pusher
Delivery: Play Store, App Store, Git/GitHub/GitLab, Clean Architecture, CI Builds

SELECTED PROJECTS

Accounting + POS (ERP26) - Commercial

Full POS and accounting product for multi-branch retail: cash register/sales, stock & GRN, purchases, journals/reporting, desktop & web UI. Flutter, Riverpod, REST.

Accounting System - Commercial

Desktop-first accounting POS with sales/purchase/ledger flows, dashboards (fl_chart), SQLite persistence, Windows and PWA builds.

Restaurant POS - Commercial

Restaurant point-of-sale with order workflows, network printers, offline-capable builds, tablet/desktop optimization.

Rain Laundry Platform - Commercial

Customer + driver apps for laundry pickup/delivery: track order, maps/routes, bulk orders. Flutter, maps, Firebase.

Ride Hailing (Mini Oway / Client Taxi) - Personal & Commercial

Live driver/rider tracking, route polylines, distance-based pricing, Firebase requests and notifications. Flutter, GetX, OSRM.

Loyalty & E-commerce - Commercial

Loyalty points apps and retail e-commerce mobiles: catalog, cart, push notifications, store-ready polish.

EDUCATION

B.C.Sc (Computer Science)

University of Computer Studies, Mandalay | Expected Graduation: 2025

LANGUAGES

Burmese (Native) | English (Professional working proficiency)

CURRENTLY LEARNING

- Laravel backend development for APIs and fuller full-stack delivery
